

Organic Applique with Kathy Doughty of Material Obsession Saturday September 19, at 10:30 via Zoom

Join Kathy Doughty for a conversation on the final frontier...Organic Appliqué. Kathy is a self-taught quilter who has explored a wide variety of styles, techniques and trends since opening Material Obsession in 2003.

Kathy will share her slide show presentation including images and stories of experiences gained as an obsessive quilter with a "no fear" attitude toward experimenting with colour, technique and inspirational interpretation. Organic Appliqué is the title of her latest book and the creative theme for her current work direction. The ideas for the book arose from the need to be original in the process.

You will enjoy this lecture if you are ready to take control of your creative experience!
